**SPECIAL INSTALLATION INSTRUCTION** Wallcovering shall be installed by experienced workers and contractors in strict accordance with these instructions. Material must be dry table trimmed. Hang rolls in sequence, do not reverse. DO NOT DOUBLE CUT. Apply material to wall using a soft brush, plastic smoother, or drywall blade wrapped with a soft cloth to lay out the material. When smoothing, work from the center out to the edges. To avoid trapping air bubbles, use an oval seam roller to butt seams. Wash smoothing brush and seam roller often, as an accumulation of paste on tools may mark or scratch the material. Completely clean adhesive off the surface after each strip is hung. Wash seams with a damp sponge and clean, warm water. Change rinse water often. Any adhesive left on the surface can cause flaking. Dry carefully with a soft cloth or chamois.
