DRY ERASE, MAGNETIC,
& PROJECTION CAPABLE
WALLCOVERING

TYPE II WEIGHT

Dry Erase Only/Dry Erase & Projection Capable: 24 oz/ly or 8 oz/lft (744 g/lm)

Dry Erase & Magnetic/Dry Erase, Magnetic & Projection Capable: 72 oz/ly or 24 oz/lft (2,232 g/lm)

WIDTH

Dry Erase Only/Dry Erase & Projection Capable: 59/60" (150/152.5 cm)

Dry Erase & Magnetic/Dry Erase, Magnetic & Projection Capable: 47/48" (119.5/122 cm)

CONTENTS

Dry Erase Only/Dry Erase & Projection Capable: 100% vinyl

Dry Erase & Magnetic/Dry Erase, Magnetic & Projection Capable: Magnetic receptive vinyl with dry erase surface

BACKING Non-woven

ABRASION RESISTANCE ASTM D3597/D4157: 20,000 double rubs

FIRE TEST

Dry Erase Only/Dry Erase & Projection Capable: ASTM E84 Tunnel Test: Class A, flame spread 15, smoke developed 250

Dry Erase & Magnetic/Dry Erase, Magnetic & Projection Capable: ASTM E84 Tunnel Test: Class A, flame spread 10, smoke developed 25 (test procedure is comparable to UL 723)

COLORFASTNESS AATCC-16 Colorfastness to Light: Rating at 200 AFU 4-5

TEAR STRENGTH Dry Erase Only/Dry Erase & Projection Capable: ASTM D2261: meets requirements

TENSILE STRENGTH Dry Erase Only/Dry Erase & Projection Capable: ASTM D5034: meets requirements

SOLVENT RESISTANCE ASTM D4752: Class 5

ADDITIONAL PRODUCT ATTRIBUTES

Cover entire walls from floor to ceiling
Resurface existing chalkboards
Practical alternative to whiteboards

Installs like standard contract wallcovering
Dry erase marks clean easily
Cost effective

WARRANTY 10-year limited warranty

CARE & MAINTENANCE Expo Whiteboard spray cleaner is necessary to bring these products back to "like new" condition. How often the spray cleaner must be used varies depending upon how often and how much writing occurs. A microfiber cloth works best when erasing, particularly with the projection capable product.

RECOMMENDED DRY ERASE MARKERS Use Expo Bold Color Markers with Write Away. These markers perform the best in terms of erasing, especially with our projection capable product. Expo Low Odor Markers work fine on dry erase materials but are more difficult to completely erase from the surface of projection capable surfaces. "Off-brand" markers may not perform as well as Expo products and should be tested.

QUICK PRODUCT COMPARISON

Dry Erase Only/Dry Erase & Magnetic

- Glossy finish
- Designed for extreme ease of cleaning

Dry Erase & Projection Capable/Dry Erase, Magnetic & Projection Capable

- Matte finish
- Dual-use surface allows both projection and dry erase/writing/erasing
- Eliminates glare and spotlighting (bouncing back of light) for projection viewing
