PRODUCT USE ADVISORY Use only in buildings with humidity control to prevent moisture issues. Not for walls with excessive moisture or those that are subject to moisture infiltration.

REDUCED ENVIRONMENTAL IMPACT:

- HPD
- GREENGUARD certified Low-VOC CA Section 01350
- Red List free
- PVC free
- PFAS free
- Phthalate free
- Prop 65
- Recycled content
- Water-based inks

MCV- FR-01 Glacial

A collaboration with 13&9 Design and Fractals Research

Martin and Anastasija Lesjak of 13&9 Design with Dr. Richard Taylor of the University of Oregon and Fractals Research, merge biophilic design with fractal science to create environments scientifically proven to reduce stress and enhance cognitive skills. Fractals—self-replicating patterns found in nature- trees, mountains, and clouds— calm the subconscious, fostering balance. Their Renaturation Collection reimagines wall surfaces by distilling nature's essence through fractal-based designs that mimic renatured ecosystems. A perfect balance of science and design, this collection celebrates nature's healing power, ecological harmony, and sustainability and brings the restorative essence of nature indoors fostering mental and physical well-being.
